Professional Summary

Experienced Software Engineer with 6+ years of expertise in designing, developing, and maintaining dynamic web applications using PHP, CodeIgniter, Laravel, Frappe, ERPNext, Python, Angular, AWS, Azure, MySQL, PostgreSQL, MongoDB, JavaScript, jQuery, and AJAX. Skilled in building scalable enterprise-level applications, REST APIs, reporting dashboards, authentication systems, and database-driven solutions. Hands-on experience with ERP and management systems including healthcare and immunization platforms such as IDIMS and EPIMIS. Familiar with Frappe/ERPNext framework, Git version control, and modern web development practices. Strong problem-solving abilities with a focus on clean code, performance optimization, and delivering reliable business solutions.

Work Experience

Software Engineer

July 2021 – Present

Micromerger Pvt. Ltd | Islamabad

- Designed, developed, and maintained scalable web applications using PHP, CodeIgniter, Laravel, Azure, AWS, Angular, JavaScript, jQuery, AJAX, and MySQL.
- Developed and modified DocTypes, Custom Scripts, Reports, Print Formats, Workflows, and Server Scripts in Frappe/ERPNext.
- Provided technical support, bug fixing, and continuous enhancement for existing applications and ERP systems.
- Collaborated with senior developers and team members to analyze requirements and deliver technical solutions.
- Created and optimized SQL queries, stored procedures, and reports for business requirements.

Associate Software Engineer

March 2021 – June 2021

Maildaddy.io | Rawalpindi

- Assisted in developing responsive and user-friendly interfaces for web applications.
- Integrated APIs and third-party services into existing applications.
- Supported deployment and server-side configuration activities in development and staging environment.
- Worked on CRUD operations, form validations, authentication systems, and database integration.

Associate Software Engineer

March 2019 – Feb 2021

Pace Technologies | Islamabad

- Participated in code reviews, testing, deployment, and maintenance activities.
- Maintained project documentation and ensured coding standards and best practices were followed.
- Assisted in developing responsive and user-friendly interfaces for web applications.
- Collaborated with senior developers and team members to analyze requirements and deliver technical solutions.
